WORK EXPERIENCE

New Zealand Cricket Association

Jul 25 - Aug 25

Full-Stack Engineering Intern – Analytics & Data Infrastructure

Remote | New Zealand / India

- Architected and deployed a scalable data platform for real-time player engagement tracking
- Built cloud-based architecture using Angular, Firebase, and Node.js with offline synchronization
- Constructed APIs and optimized data workflows to improve reporting speed and operational efficiency
- Applied user-centric design principles to enhance usability and system performance

PROJECTS

AI-Powered Stock Intelligence Platform [LINK](#)

Jan 26 - Feb 26

Tech Stack: React, Node.js / FastAPI, PostgreSQL/MongoDB, REST APIs

- Built an AI-driven platform analyzing real-time stock data and financial news to generate actionable buy/sell insights
- Structured modular backend services for data ingestion, sentiment analysis, and prediction, enabling scalable processing
- Optimized API performance using caching and asynchronous processing, reducing response latency
- Created an interactive dashboard with real-time updates, portfolio tracking, and alert systems

Ganit.AI – Intelligent Math Solver [LINK](#)

Mar 25 - Apr 25

Tech Stack: Python, JavaScript

- Engineered an AI-based math solver generating step-by-step solutions for complex mathematical problems
- Formulated logic-driven computation workflows to handle diverse problem types across multiple domains
- Focused on accuracy and explainability to enhance user understanding

Cross-Platform Secure System Call Interface [LINK](#)

Jan 25 - Feb 25

Tech Stack: Python

- Engineered a secure GUI-based system call interface with Role-Based Access Control (RBAC) to restrict unsafe operations
- Established controlled execution layers to mitigate risks associated with direct shell access
- Improved system safety by enforcing permission-based command execution

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, SQL

Frameworks/Tools: React.js, Node.js, Express.js, Angular, Firebase, AWS, Docker, DevOps

Databases: MongoDB, MySQL, PostgreSQL

Core Concepts: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

ACHIEVEMENTS

- Solved 300+ DSA problems across coding platforms
- Awarded ₹2.40 Lakhs Ideation Grant (Government of Rajasthan)
- 1st Runner-up, Code Off Duty Web Hackathon
- Winner, Zerodha Varsity Finance Quiz
- NPTEL Certification in Cloud Computing
- Delivered 3 Prompt Engineering workshops impacting 250+ students across multiple disciplines
- Core Member in multiple College Organizations, leading 50+ large-scale events featuring top industry leaders.

EDUCATION

Lovely Professional University

B.Tech - Computer Science & Engineering

CGPA - 8.34

2023 - Present

Jayshree Periwal High School

Senior Secondary (XII), CBSE Board

Percentage: 80.4

2021 - 2023

St. Xavier's School

Secondary (X), CBSE Board

Percentage: 81.2

2011 - 2021
